PRODUCT DESCRIPTION

Enjoy hanging up this shiny metal print of an image from the book KLASSIC KOALAS: ANCIENT ABORIGINAL TALES IN NREW RETELLINGS. It offers a beautiful aluminum surface that stretches the limits of the sublimation dye process. It can be displayed individually or grouped in clusters. The mounting block consists of a 1/2-inch piece of black hardwood that adheres to the back of a panel via strong adhesive tape. The raised panel creates a shadow on the wall while beautifully accenting the image.
