PRODUCT DESCRIPTION

Let us transform this Klassic Koalas print into an actual encaustic painting. In this technique, was is applied over a printout of the drawing with varying degrees of thickness and textures. The process reveals different levels of depth and creating unexpected tactile and visual variations. The result has an overall sense of mystery and a completely handmade look, turning the original into a derivative work. This painting ships with a one-inch high maple wood frame that enhances the beauty of the art by way of a clean and natural touch. The frame ensure the work is well-protected for generations to come, if kept inside of a home with temperate conditions. Avoid exposure to extreme heat or dropping the artwork on the floor.
